Resume

PERSONAL DATA

Name	SATHISHKUMAR N
Address	1-14-37B20 T.B Road, Sankari-637301, Salem District, Tamil Nadu, India.

Certified In

Mobile	Tamil Nadu: +91-93 604 93 603
E-mail	n.sathishkumar@hotmail.com | sathishkumarnagarajan@outlook.com
LinkedIn	www.linkedin.com/in/isathishkumar
Nationality	India
Date of birth	14 May 1990

CAREER OBJECTIVE

My goal is to assume a leadership role in a dynamic, high-growth environment where I can leverage my expertise in technology, development, and business support within core IT domains.

I bring a forward-thinking approach, embracing MVPs, Proof of Concepts, and Product Engineering, with a strong commitment to continuous learning and development.

I'm motivated by challenges and driven to deliver innovative solutions that organizational success.

PROFILE SUMMARY

I possess the ability to work independently while effectively multitasking in dynamic situations.

As a collaborative team player, I excel at contributing to group efforts and ensuring projects are delivered on time. I am deeply passionate about staying abreast of new developments and emerging technologies in IT. In addition to being a strong team contributor, I bring expertise in areas such as System Design, Architecture Strategy, Software Design, Engineering, Leadership, Security, Delivery, Governance, Compliance, Customer Support, and Research. I leverage these skills to foster innovation and drive results. My dedication to aligning IT skills with strategic goals has led to successful outcomes in product development and engineering initiatives with previous employers. Looking forward, I aim to delve into new domains, broaden my knowledge, and contribute meaningfully across diverse aspects of IT.

PROFESSIONAL EXPERIENCE

[Core Development with DevOps and Cloud Services, IT Leadership]

Date	April 2024 – Present
Project title	Lead Enterprise Architect
Company	Truetech Solutions Private Limited
Functional of activity	

- Enterprise Architecture Strategy
- Technical Leadership
- System Design and Integration
- Cloud Solution and POCs and MVP
- Technology Stack Management
- Risk Management
- Cloud Migration – IaaS, PaaS, SaaS
- Digital Transformation
- Cloud Security and Compliance
- Project Delivery and Implementations

- SRE – Site Reliability Engineering
- AI and ML Startup Projects
- Product Development for Gen AI and LLM
- GitHub Actions and Multi Cloud Deployment
- Cost Optimization
- Performance Testing
- Automation Testing
- Pre-Sales and Client Proposals

Gained skills	Business know-how:	Enterprise Architect for Cloud Services and Product Architecture and System Design and Integration and automation on DevOps and AI Next Gen Startup Product Development and Go to Market
	Data Management:	Azure SQL, MongoDB, Cosmos DB, MongoDB, PostgreSQL
	Development tools & Technologies:	Terraform, YAML, Open Stack, Python, NodeJs, Automations, ECS, Docker, Data Dog, Grafana, New Relic, Dynatrace, Sentry, AWS, Azure, GCP, Heroku, Salesforce, WorkOS

Additional details Architecture Planning involves developing and maintaining product engineering architecture strategy aligned with business goals. Technical Leadership is crucial for providing guidance to cross-functional teams and driving innovation in product design. System Design focuses on creating scalable systems supporting the engineering lifecycle, while Technology Stack Evaluation ensures alignment with business objectives through technology and Architecture Recommendations and Monitoring and Implementation with leadership.

Risk Management involves identifying and mitigating technical risks, collaborating with various teams for efficient development, Security, Scalability and resilience, communicating architectural decisions effectively to stakeholders through comprehensive documentation. Development and Cloud Migration and Digital Transformation.

Clients Luter.ai, Engineered Innovation Group, Hypernet.ai, Covered365 Inc, IEDC, The Juice, Arkana Health

Date Dec 2020 – April 2024

Project title Enterprise Architect

Company Encora Innovation Labs Private Limited

Functional of activity
- Enterprise Architecture Strategy
- Technical Leadership
- System Design and Integration
- Cloud Solution and POCs and MVP
- Technology Stack Management
- Risk Management
- Infrastructure as a Code
- Cloud Migration – IaaS, PaaS, SaaS
- Digital Transformation
- Databricks
- ETL – Data Factory Implementation
- Cloud Security and Compliance
- Azure disaster recovery
- Cloud Solution and POCs
- Project Delivery and Implementations
- SRE – Site Reliability Engineering
- Configuration Management
- Identify access management

Gained skills	Business know-how:	Enterprise Architect for Cloud Services with Microservice and Serverless Architecture, System Integrations, Architecture Strategy, Product Design, DevOps
	Data Management:	Azure SQL, PostgreSQL, Cloud SQL, Cosmos DB, MongoDB
	Development tools & Technologies:	Terraform, YAML, Open Stack, Microsoft Stack, Automations, AKS, Docker, Data Dog, Splunk, Grafana, New Relic
Additional details	As an Enterprise Architect as well as Leading the Delivery of Banking and Mortgage Products and Application cloud Migration and Product Design and Implementation, Infrastructure and Security Implementations Development and Cloud Migration and Digital Transformation.	
Clients	Sagent, CISCO	
Date	Dec 2019 – May 2020	
Project title	**Central of Excellence in Cloud Services**	
Company	**Kumaran Systems Private Limited**	
Functional of activity		

- **Architecture Strategy**
- **System Design and Integrations**
- **Product Engineering**
- **Research and Development**
- **Cloud Architecture – GCP, AWS, Azure**
- **Data Visualization**
- **Server Virtualization**
- **Disaster Recovery**
- **Hardware Management**
- **Digital Transformation and AI & Chat Bots**
- **Cloud Migration – IaaS, PaaS, SaaS**
- **Digital Transformation**
- **Azure disaster recovery**
- **Cloud Solution and POCs**
- **Project Delivery and Implementations**

Gained skills	Business know-how:	Solution Architect and Delivery on Cloud Services
	Data Management:	Azure SQL, MongoDB, MySQL, MS SQL
	Development tools & Technologies:	▪ Dotnet core, Entity Framework, Java Spring Boot ▪ Micro Services
Additional details	As a Solution Architect as well as Leading the Product engineering and Architecture with Product and Strategy for Architecture and Product Delivery for Banking Products and Application and Retail Banking. Development and Cloud Migration in AWS and Azure with Digital Transformation.	
Clients	CIBC	
Date	Dec 2019 – May 2020	
Project title	**Banking Products**	
Company	**Kumaran Systems Private Limited**	
Functional of activity		

- **Architecture Strategy**
- **System Design and Integrations**
- **Server Virtualization**
- **Disaster Recovery**
- **Hardware Management**
- **Data Management and Modeling**
- **Event-Driven Architecture Pattern**

- Saga Pattern
- 12-Factor App Methodology
- Predictive Analytics
- Enterprise Data Architecture
- Product Engineering
- Data Center Infrastructure and Security
- Client Management and Governance
- Cloud Architecture
- Governance Risk and Compliance
- Micro Services Architecture
- Cloud Services Azure, AWS
- Data Factory and Storage Services
- Data Migration Services PaaS, SaaS
- Kubernetes
- Data Visualization
- Digital Transformation and AI & Chat Bots

Gained skills	Business know-how:	Solution Architect and Delivery
	Data Management:	Azure SQL, MongoDB, PostgreSQL, MS SQL, SSIS, SSRS
	Development tools & Technologies:	- Dotnet core, Entity Framework, Java8, Spring Boot - Micro Services - NodeJs Frameworks, Angular - Kubernetes with AKS - DevOps and DevSecOps - SOC, ISO, PCI
Additional Details	As a Solution Architect as well as Leading the Delivery of Banking Products and Application Development. Full Stack Development Activities Team Management like worked multi-role.	
Clients	CIBC Bank	
Date	Oct 2017 – Dec 2019	
Project title	**Sports Management Framework and Web Platform**	
Company	**Orion Systems India Private Limited**	

Functional of activity
- Technical Delivery
- System Architecture and Design
- Engineering and Automation Strategy
- Project Management
- Cloud Architecture -PaaS
- Micro Services Architecture
- Data Modeling Principles
- Predictive Analytics
- Enterprise Data Architecture
- Data Migration
- Data Warehouse
- Data Mesh Architecture
- Data-Centric Architecture
- Azure Cloud Services
- Kubernetes
- Business Rule Engine
- Digital Transformation
- Chat Bots

Gained skills	Business know-how:	Lead Technical Architect and Delivery
	Data Management:	Azure SQL, MongoDB

Development tools & Technologies:	▪ Dotnet core, Entity Framework, Java8, Spring Boot ▪ Micro Services ▪ NodeJs Frameworks, Angular ▪ Kubernetes with AKS
Additional details	Lead Technical Architect as well as Leading the Delivery in Micro Service with the AKS app Development. Full Stack Development Activities Team Management like worked multi-role.
Clients	TheFA
Date	Oct 2017 – Dec 2019
Project title	**Central of innovation in AI and Chat Bot**
Company	**Orion Systems India Private Limited**
Functional of activity	▪ **Technical System Design** ▪ **Technical Delivery** ▪ **Central of Innovation for AI and Chatbots** ▪ **Cloud Architecture IaaS, PaaS, SaaS** ▪ **Azure Cognitive Services** ▪ **Data Visualization** ▪ **Digital Transformation** ▪ **Data Modeling Principles** ▪ **Predictive Analytics** ▪ **Enterprise Data Architecture** ▪ **Data Migration** ▪ **Data Warehouse** ▪ **Data Mesh Architecture** ▪ **Data-Centric Architecture**
Gained skills	Business know-how: Technical Architect and Delivery with Bots - COI Data Management: Azure SQL
Development tools & Technologies:	▪ Python, OCR, R, LICR ▪ Azure Cognitive Services ▪ Chat Bots, AI, ML, Sentiment Analysis ▪ Azure Search Services ▪ NLP, Speech Services
Additional details	As a Technical Architect as well as Leading the Delivery in Chat Bots project and Product Development. Full Stack Development Activities Team Management like worked multi-role.
Clients	KPMG
Date	Oct 2017 – Dec 2019
Project title	**Banking Application with Automation**
Company	**Findroids ApS.**
Functional of activity	▪ **Project Management** ▪ **Cloud Architecture** ▪ **SAP Apps** ▪ **Cloud Integration-SaaS** ▪ **Data Visualization** ▪ **Machine Learning** ▪ **Digital Transformation** ▪ **Advanced Analytics** ▪ **Data Modeling Principles** ▪ **Predictive Analytics** ▪ **Enterprise Data Architecture** ▪ **Data Migration**

Gained skills	Business know-how:	Sr. Cloud and Software Architect
	Data Management:	Azure SQL, Azure Cloud Services, MySQL, MongoDB
	Development tools & Technologies:	▪ Python, SAP, OCR, R ▪ Angular, Azure Cloud with SAP Solutions
Additional details	As a Cloud Architect, I was handling the UI/UX team, Development Team, Testing Tea	
	Understand the requirements and use JIRA to manage the versions and code control.	
Clients	Nordea Bank Denmark	
Date	Feb 2017 - Sep 2017	
Project title	**Cloud Fleetsu Platform**	
Company	**Fleetsu Inc.**	
Functional of activity	▪ **Software Design** ▪ **Database Design and Implementation** ▪ **Project Lead** ▪ **Architecture -IaaS, PaaS** ▪ **Application Development** ▪ **Cloud Services – Azure, AWS** ▪ **Docker** ▪ **REST API Development** ▪ **API Protocols** ▪ **OAuth 2.0** ▪ **Microservices** ▪ **Data Migration** ▪ **Digital Transformation**	
Gained skills	Business know-how:	Software Product Development and Leadership
	Data Management:	MySQL
	Development tools & Technologies:	▪ PHP Framework Symphony ▪ Composer, Tig Template engine
Additional details	As a Technical Leader, I was handling the UI/UX team, Development Team, Testing Team	
	Understand the requirements and use JIRA to manage the versions and code control.	
Clients	Fleetsu Inc.	
Date	May 2015 - Dec 2016	
Project title	**IOT and BI Development and implementation**	
Company	**MEYE Management Services Private Limited**	
Functional of activity	▪ **Project Management** ▪ **IOT Implementation** ▪ **Security Architecture – PaaS** ▪ **Application Integration** ▪ **Cloud Services - SaaS** ▪ **Data Visualization** ▪ **Reports** ▪ **Cyber Security Architecture** ▪ **Security Information and Event Management (SIEM)** ▪ **Architectural Governance** ▪ **GRC (Governance, Risk, and Compliance)** ▪ **Digital Transformation** ▪ **OPC DA, OPC UA Management**	
Gained skills	Business know-how:	IoT with Automation system
	Data Management:	Azure Monitoring and Alerts, IOT HUB, Azure SQL

Development tools & Technologies:	▪ Node-Red Framework, NodeJs Framework, Angular ▪ D3.Js, Google Charts, Messaging Protocol OPC ▪ SAP, Oracle App, Data Integration, ▪ Monitoring and Alerts in Azure Cloud Service	

Additional details In the Power plan, we have implemented the IoT with a real-time reporting system integrated
BI tool. We are getting Data sources from DCS Yokogawa through OPC tags getting results.

Clients GMR Group

Date May 2015 - Dec 2016

Project title **Configurator**

Company **Meye Management Services Private Limited**

Functional of activity
- **Project Management**
- **Architecture Strategy**
- **Application Development**
- **System Design and Integration**
- **Cloud Services -SaaS**
- **Microservices**
- **Serverless**
- **Docker Stack**
- **Data and Application Migration**
- **Digital Transformation**
- **Capital Markets**
- **Market Risk**
- **Finance Services**
- **ISO 20022 Standards**
- **DIT, SIT, SAT**

Gained skills

Business know-how:	ERP Product Development with Automation
Data Management:	Azure SQL, Azure Cloud Services, MySQL, MongoDB
Development tools & Technologies:	▪ PHP Framework Laravel ▪ Composer, Tig Template engine ▪ Angular, JavaScript

Additional details As Software Architect, we created the application creator. With help of configurator   PMS,

ERM, FMS, HMS, HRM, CRM, HDMS like applications we builder using the configurator

Clients Pinnacle, Milestones, GMR, VPJ, Metha Jewelers, RS&CO

Date February 2015 - Dec 2016

Project title **Live Broadcasting and Streaming Cross Platform Application Services**

Company **MyLudus Inc**

Functional of activity
- **Project Management**
- **Architecture**
- **Cloud Services - PaaS**
- **Microservices**
- **Media Services and Machine Learning**
- **Distributed Systems**
- **Integration and Considerations**

Gained skills

Business know-how:	Software Product Development
Data Management:	Azure SQL, Azure Cloud Services, MySQL, MongoDB
Development tools & Technologies:	▪ JAVA Spring Boot, NodeJs Frameworks ▪ WebRTC, Media Service, Wowza Platform API

Additional details In this product Live Broadcasting, Streaming, RTMP, Media Services using mobile devices and

Other devices can live abroad the live sports events.

Clients	Sports Organizations in USA, MyLudus Inc.
Date	June 2015 - Dec 2016
Project title	**Scorekeeper Application**
Company	**MyLudus Inc**
Functional of activity	▪ **Project Management** ▪ **Architecture** ▪ **Product Engineering** ▪ **Cloud Services -SaaS** ▪ **GPS Location Tracking** ▪ **Microservices**
Gained skills	Business know-how: Software Product Development Data Management: MySQL, SQLite, JSON, Mongo DB Development tools & Technologies: ▪ MVC Framework, ExpressJs, NodeJs ▪ PHP, ASP.Net, NodeJs, Ionic Framework ▪ Cordova Platform
Additional details	Sports event scores can be updated and stored through our scorekeeper application. App is Offline, online real-time sync operations with cross-platform applications for multiple games
Clients	Sports Organizations in USA, MyLudus Inc.
Date	June 2015 – Dec 2016
Project title	**Product Design Testing and Product Testing Application**
Company	**Mesh01 Inc**
Functional of activity	▪ **IT Security Audit** ▪ **Architecture Strategy** ▪ **Governance Risk and Compliance** ▪ **Security Architecture** ▪ **Penetration Testing** ▪ **Vulnerability Assessment** ▪ **MIS Report**
Gained skills	Business know-how: Software Product Development Data Management: MySQL, SQLite, JSON, Mongo DB Development tools & Technologies: ▪ MVC Framework, ExpressJs, NodeJs ▪ PHP, ASP.Net, NodeJs, Ionic Framework ▪ Cordova Platform
Additional details	Product Design Testing, Product Quality Testing Software application data with Architecture Optimization and cross-platform apps development can be done
Clients	Walmart Inc
Date	Dec 2014 - Jun 2015
Project title	**IT Security Audit**
Company	**MEYE Management Services Private Limited**
Functional of activity	▪ **IT Security Audit – IaaS** ▪ **Governance Risk and Compliance** ▪ **ISO, SOC, PCI** ▪ **Threat Modeling** ▪ **Security Architecture** ▪ **Penetration Testing** ▪ **Vulnerability Assessment**

	▪ **MIS Report**	
Gained skills	Business know-how:	IT Infrastructure and Security Audit
	Data Management:	MIS Report
	Development tools & Technologies:	Penetration Testing Vulnerability assessment Management Information Service
Additional details	As a Software Architect, I was given an IT Advisory for Banking, Retail, Corporates, Telecom, Healthcare, Manufacturing industries to improve the next level of IT Infrastructure.	
Clients	Oriental Bank at Kenya, ORRA at Mumbai, VVD Gold	
Date	March 2014 - Sep 2015	

Project title	**MEYE Dashboards BI (Micro strategy)**	
Company	**MEYE Management Services Private Limited**	
Functional of activity	▪ **Project management** ▪ **Architecture -SaaS** ▪ **Database Design** ▪ **Big Data R&D** ▪ **Product Documentation**	
Gained skills	Business know-how:	**Control the Tuberculosis**
	Data Management:	**MySQL, Big Table, Big Data**
	Development tools & Technologies:	▪ **HTML5, jQuery, CSS3** ▪ **PHP, C++, OOPs** ▪ **Big Data Prototype** ▪ **ETLs, Web Query, Restful** ▪ **Cloud Services and SAAS**
Additional details	In this Product, I reconstructed the architecture with improving product performance. As a software architect, I concentrate on product performance with the big data operation. In this Product to analogize and proved theorems in real-time Strategies.	
Date	March 2014 - Sep 2014	

Project title	**Grand Challenges TB project**	
Company	**Xcode Life Sciences Private Limited**	
Functional of activity	▪ **Project management** ▪ **Architecture** ▪ **Database Design** ▪ **Software development/design** ▪ **Server Administration**	
Gained skills	Business know-how:	**Control the Tuberculosis**
	Data Management:	**MySQL, Big Table, Big Data**
	Development tools & Technologies:	▪ **HTML5, jQuery, CSS3** ▪ **PHP** ▪ **Kookoo Library** ▪ **OpenVBX, Web Query, Restful** ▪ **Cloud Telephone System, SMS Gateway, IVR** ▪ **Google, Azure, Aws, Linode Cloud Services**
Additional details	As an IT Project Leader, I Handled this Health Care Project for Tamil Nadu Government. This Project Cloud Telephonic with Big Data technologies to control Tuberculosis	
Clients	**www.gfet.org**	
Date	March 2014 - Sep 2014	

Project title	**Content Management System**
Company	**Xcode Life Sciences Private Limited**
Functional of activity	▪ **Project management** ▪ **Architecture** ▪ **Database Design** ▪ **Software development/design** ▪ **Server Administration**
Gained skills	Business know-how: **B2B, B2C, Data Warehousing** Data Management: **MySQL, SQL** Development tools & Technologies: ▪ **WordPress** ▪ **Html5, RWD, Css3,** ▪ **jQuery, Backbone.js** ▪ **PHP, XML, OOAD, C#.Net** ▪ **Photoshop CS6, FlashCS6**
Additional details	As a project manager, I supported this project to develop Responsive Web Design (RWD) and Media Queries in WordPress.
Clients	**www.xcode.in, www.100andlife.com**
Date	March 2014 - Sep 2014
Project title	**Bug Tracking and Ticket System**
Company	**Xcode Life Sciences Private Limited**
Functional of activity	▪ **Project management** ▪ **Architecture -SaaS** ▪ **Database Design** ▪ **Software development/design** ▪ **Server Administration** Business know-how: **Bug Tracking with Knowledge center** Data Management: **MySQL, SQL** Development tools & Technologies: ▪ **OsTicket** ▪ **Html5,** ▪ **jQuery, Backbone.js** ▪ **PHP, XML, OOAD, C++**
Additional details	As a project manager, I handled this project's support and development with Responsive Web Design (RWD), and Media Queries in OsTicket.
Clients	www.support.xcode.in
Date	March 2014 – Sep 2014
Project title	**Come Alive Microsite**
Company	**Xcode Life Sciences Private Limited**
Functional of activity	▪ **Project management** ▪ **Architecture** ▪ **Database Design** ▪ **Server Administration** Business know-how: **Bug Tracking with Knowledge center** Data Management: **MySQL** Development tools & Technologies: ▪ **Html5, RWD, Css3,** ▪ **PHP, Web Query** ▪ **jQuery, Bootstrap**
Additional details	As a project manager, I handled this project's support and development with Responsive Web Design (RWD), and Media Queries in Bootstrap.
